

PaceButler Corporation

We are interested in buying/recycling cell phone devices which include, "all model cell phones from any carrier, iphones, mifi's & hotspots". We also buy ipads and galaxy tablets and pricing is available on certain other "Tablets". Data clearing is in place to remove sensitive information from your devices at "no cost to you".

We have an auditing department that will sort & test all devices. Cell phones that are not in working order and not on our defective phone pricelist are disposed of according to E.P.A guidelines. This helps your company stay "green". If you would like to donate the proceeds, we can issue your check to any community organization of choice.

We have been in business since 1987.

***For every cell phone we purchase, we donate an educational book. We have already donated over 861,000 books.**

SPECIALLY MARKED BOXES ARE AT THE DOORS OF THE CHURCH FOR USED CELL PHONES & TABLETS.
